YOUNG IMAGINEERS

2018 COMPETITION

Combine imagination with engineering and exciting things start to happen!

Are you aged between 7 and 14?
Here's your chance to let your creativity run wild as you come up with an amazing invention to improve the world.

Science, Technology, Engineering and Maths are in every part of our lives. For the second year running, Equinor and the Science Museum aim to encourage the creators and entrepreneurs of tomorrow to think outside the box and come up with something truly unique that will either tackle a modern-day challenge or even solve a simple problem like losing biscuits in tea!

Building on the success of *Wonderlab: The Equinor Gallery*, we want to engage the youngest and most creative and curious minds from across the UK. The Young Imagineers 2018 Competition asks 7 to 14-year olds to consider and answer the question:

What invention would you create to make tomorrow's world a better place?

Full terms and conditions can be found at: www.youngimagineers.equinor.com

How to enter

What invention would you create to make tomorrow's world a better place?

1. Draw a sketch of your invention.

2. Write up to 100 words explaining what it is; and...

3. Get your parent/carer or teacher to scan or photograph the entry and submit a digital copy with the entry form (see last page of this leaflet) at: www.youngimagineers.equinor.com or by post to We are Futures, Young Imagineers Competition, 88 Lower Marsh, Lambeth, London. SE1 7AB by the deadline: 21st October

Our judges will be looking for your entries to:

- ☑ Solve a problem.
- ☑ Be creative and show use of your imagination.
- ☑ Be something that people will want to use.
- ☑ Be different to, or better than, what's already available.
- ☑ Improve people's lives in some way.

Judging

The ten most creative, imaginative and inspirational entries will be shortlisted. These entrants will be given the chance to further develop their invention with the help of a professional designer.

The shortlisted ten will then be invited to show off their newly developed designs with our expert panel and live audience – during an exclusive, fun-packed day of entertainment at the Science Museum in central London on Saturday 24th November.

Amazing prizes!

THE WINNER

The winner will have an interpretation of their invention produced and exhibited inside the Science Museum for at least a month and will also receive:

- One bespoke-designed experience day at the Science Museum in London.
- Annual family pass to Wonderlab: The Equinor Gallery at the Science Museum in London.
- 50 copies of the book *This Book Thinks You're a Scientist* for the winner's school.
- Science Museum goodies.

THE RUNNERS UP

Each shortlisted entrant will receive:

- A copy of the official Wonderlab book - "This Book Thinks You're a Scientist"
- Entry for themselves, one parent/guardian and two other guests to the Young Imagineers Live day at the Science Museum on Saturday 24th November 2018
- Science Museum goodies

Dear Parent/carer or Teacher,

Please scan or photograph the entry and submit a digital copy along with the entry form below at **www.youngimagineers.equinor.com** or by post to We are Futures, Young Imagineers Competition, 88 Lower Marsh, Lambeth, London. SE1 7AB by the deadline: **21st October 2018**.
