

Record-breaking Experiments

Start by reading the pages of the book *Guinness World Records: Science & Stuff* that relate to your challenge.

Write down any initial thoughts or ideas around the challenge ahead:

[Dashed box for writing initial thoughts]

Which materials are you going to try?

[Dashed box for writing materials]

DEVELOPING AND TESTING YOUR DESIGN

What question are you going to investigate?

[Dashed box for writing question]

What are you going to change?

[Dashed box for writing changes]

What will you need to keep the same, to make the test fair?

[Dashed box for writing constants]

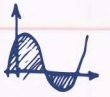

What are you going to measure?

[Dashed box for writing measurements]

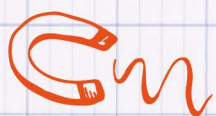

Your observations/results

How will you change your design, as a result of your test?
