

Calling all designers, creators, builders and players!

It's time to design the play spaces of the future. Ones that make everyone feel welcome, that help people to connect and that are future-proofed and sustainable.

I'm up for the challenge – what do I need to do?

In class, you've used your imagination to plan an amazing play space – somewhere that everyone's going to want to go. That's amazing! Now it's time to get your design ideas out there and share your vision for great play spaces.

I'm in! How do I enter?

Get your creative thinking cap on and design the ultimate play space of the future – one that is a haven for friendship, sustainability, and inclusivity. From sketching to sculpting, you can develop your design ideas however you wish:

Make it

Write about it!

Paint it!

Draw it!

Digitise it!

We'll share the winning entries on our website, spreading creative ideas for all to see.

What are you looking for?

We're on the look-out for designs that are:

- **Meaningful** – think about how your play space breaks down barriers and helps everyone to join in the fun
- **Creative** – let your ideas soar. We want to see your inner designer
- **Sustainable** – think about ways you can use great materials that won't damage the earth but will help make your play space weather-proof and future-proof

Grown-ups, this bit's for you:

1. Support your pupils to complete their entry below.
2. Fill out the form with pupils' first names and your details.
3. Post the entry form or send by email to submit.
