

# Innovation has no limits

Become an innovator for the future with Solve for Tomorrow - inspiring young people to become tomorrow's problem solvers.

## THE DESIGN THINKING PROCESS

Millie came up with **My Bear**, a smart toy that helps children understand other cultures.

"I designed my product using **Design Thinking**, a process used by tech companies all over the world."

### ... and here's some more inspiring designs

**Alice Flanders, VeniCheck**  
Model arm for medical professionals to practise drawing blood on darker skin tones.

**Dami Oke, GLIMPSE**  
AI glasses to assist people with visual impairments.

**Team Repair**  
Educational kits that teach children how to fix broken gadgets.
