

## DVD GUIDANCE

The much anticipated sequel to Rio has arrived. The entire cast of Rio returns in Rio 2 and they are joined by a new flock of characters as Blu visits the Amazon rainforest for the first time. This educational DVD dance resource inspired by the Rio movies will allow children to discover the sights, sounds and creatures of this amazing habitat.

The DVD included in this pack supports the three Dance to Rio 2 lessons and is designed for teachers of Key Stage 2 (or equivalent) delivering curriculum requirements for dance. It has been created by a professional dancer and education practitioner to complement the storyline of the film and the themes of geography and art; helping your pupils to get into the spirit of the Rio Carnival.
