

Freda's **SUPER SIX**  
and their

**HAPPY**

*Eggventures*

A natural source  
of goodness

IT'S FRY-DAY. WINTER IS COMING.

FREDA ROAM HAS CALLED HER SUPER SIX IN FOR AN EMERGENCY MEETING ABOUT A NEW THREAT TO THEIR MISSION OF SHARING THE NATURAL GOODNESS OF EGGS WITH THE WORLD...

The Evil Villain Oval-Lord Vit D Deficiency is getting close to doing what we all feared... eliminating the sunshine vitamin this winter!

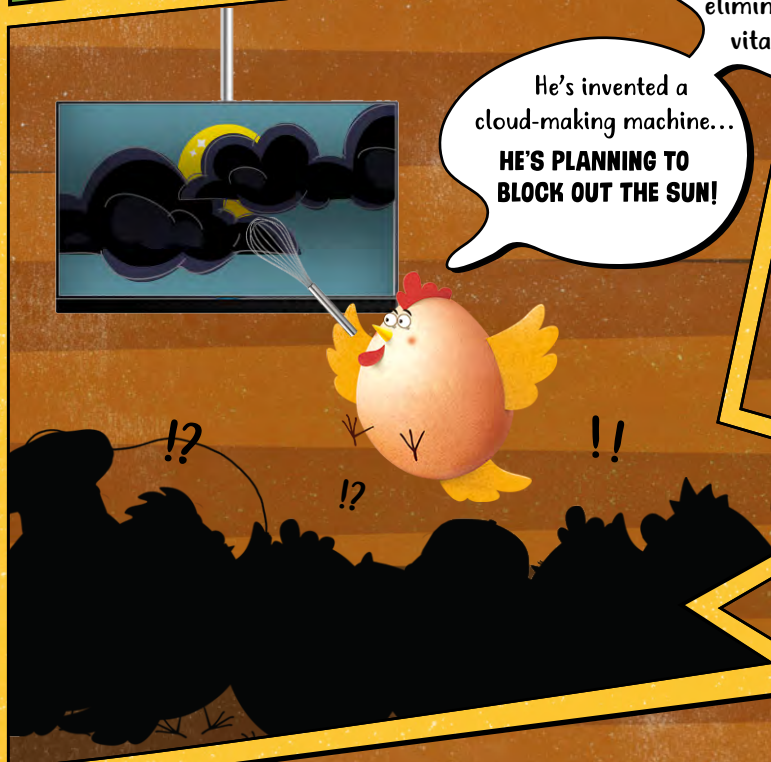

He's invented a cloud-making machine...  
**HE'S PLANNING TO BLOCK OUT THE SUN!**

**WANTED**

**"VIT D DEFICIENCY"**

Whoa.  
He's one  
**ROTTEN EGG!**

Errrr Eggscuse me Freda... But what is the sunshine vitamin? What does it do? What's it got to do with the sun?

**GOOD QUESTION**

**TWEETY!** The sunshine vitamin is **VITAMIN D**, and it affects our bodies and our minds!

We need vitamin D to help keep healthy. Sunshine helps our bodies create vitamin D.

We have to find another source of vitamin D! We can't let that evil Villain defeat us!

If the **EVIL OVAL-LORD VIT D DEFICIENCY** manages to block out the sun, it will be difficult for humans to make the vitamin D their bodies need to stay happy and healthy!

You're right Skippy! Let's hatch a plan, and quick! We're losing vitamin D levels fast, leaving children like this! Professor McCluck! I need you to...

I'm already on it - to the Roamer! I'm going to get a closer look!

GO, GO, SUPER SHRINK POWER!

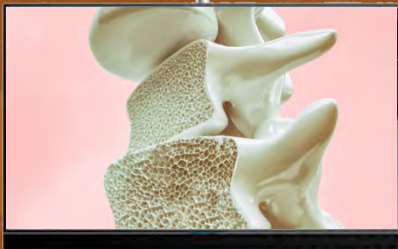

**A LITTLE LATER, SOMEWHERE  
INSIDE THE HUMAN BODY...**

These bones  
aren't absorbing enough  
**CALCIUM**. This isn't right...  
I can feel it in  
my bones!

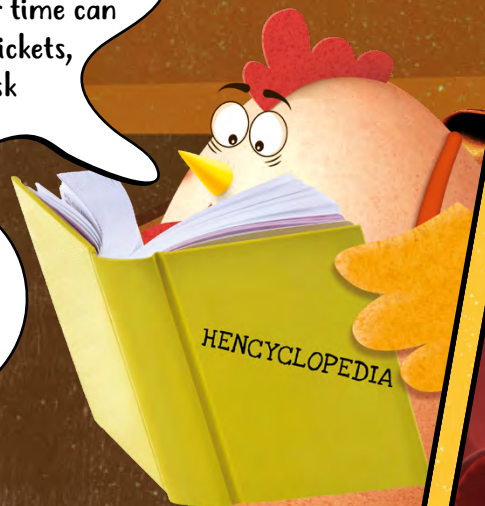

**BACK AT  
HENQUARTERS...**

It says here that  
we need vitamin D to properly  
absorb calcium, which we all need for  
strong bones, teeth and muscles.  
Not enough vitamin D can lead to bones  
becoming less strong, and over time can  
lead to a condition called rickets,  
leading to a greater risk  
of fractures.

Man!  
That Evil Oval-Lord  
Vit D Deficiency is  
**BAD TO THE BONE!**

**MEANWHILE IN THE HUMAN BODY...**

It's an **AMBUSH!**  
The body is struggling to  
fight off these viral invaders!  
We need something to help  
**WAKE THIS IMMUNE  
SYSTEM UP!**

**EGGROAMER,  
BACK TO HQ!**

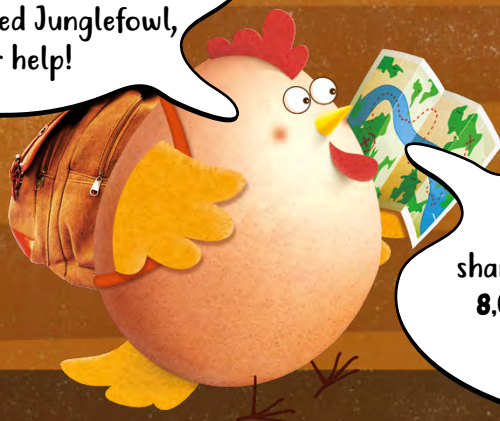

**BACK AT HENQUARTERS, FREDA AND THE SUPER SIX ARE SHELL SHOCKED!**

'Share the natural goodness of eggs with the world'

Have no fear, **TWEETY MCFLY IS HERE!** I'm going to travel back in time and ask our ancestors, the Great Red Junglefowl, for help!

They started us on a mission to share our natural goodness **8,000 YEARS AGO.** They'll know what to do! **TO THE ROAMER!**

**GO, GO, TIME TRAVEL POWER!**

## TRAVELLING THROUGH TIME...

Hmmm.  
This is taking  
longer than usual...  
Better check I put in  
the right date...

## THE DINOSAUR AGE?!

VITAMIN D

A natural source  
of goodness

Happy Eggs

Oops!

I went back too far!  
We've landed 65 million  
years ago! But I think I've  
cracked it! The extra vitamin D  
we need is hidden inside  
the yolk of our eggs!

VITAMIN D

A natural source  
of goodness

Happy Eggs

CRACK!

CRACK!

Full of beams!  
Let's give the children  
vitamin D the natural  
and tasty way!

A natural source  
of goodness

Happy Eggs

I always knew egg  
yolks were like little  
rays of sunshine!

Now let's get out of  
here Tweety, before we meet  
whatever creature laid  
that huge egg...

Freda's right! The  
domestic chicken is the  
closest living relative  
of the T-REX! THAT'S A  
T-REX EGG! LET'S GO!

SAFELY BACK  
AT HENQUARTERS...

Right then,  
Eggventurers, we know  
what we need to do! The  
extra vitamin D is  
**INSIDE OUR EGGS!**

Got it!  
Eggs, sunny side up!  
Lots of **NTG** power:  
**NATURAL - TASTY -  
GOODNESS!**

I've got just  
the recipe to defeat  
that Evil Oval-Lord  
Vit D Deficiency ...

I always knew we'd  
find a natural  
source of sunshine  
goodness

Now we can feel  
sunny whatever  
the weather!

You're right!  
Eggs are perfectly tasty and  
nutritionally powerful...  
But we need to share their  
natural tasty goodness  
with children!

A natural source  
of goodness
