

# Glass Guardians

in partnership with  
**Friends  
of Glass**

## Competition

In school you've been learning about glass packaging – how it's made and how it's recycled.

## Your challenge

We're challenging you to come up with a personal pledge and a clever way to get people to recycle more glass! You can be as creative as you like — plan a community event, design an eye-catching campaign poster, create an informative app, draw a cartoon strip... the choice is yours!

## The prize

By entering this exciting competition, you could be in with a chance of winning an Amazon Fire 7 tablet for yourself and £500 worth of equipment vouchers for your school.

## All you need to do is:

- complete the pledge statement to create your personal glass pledge
- draw or describe your idea in the space provided
- make sure your name and school details have been filled out correctly
- send your entry to us using the details overleaf by Monday 8th July.

## How can your parents help?

Ask them to find out how glass packaging is recycled in your area — do you have to take it to a glass bank or does the local authority collect it from your house? How might this influence your idea?

## Be a Glass Guardian!

Cut out these top tips for recycling glass and stick them up at home.

# Glass Guardians

**We can all help make sure as much glass as possible gets recycled by...**

- **looking all around your house for things in glass like:** ketchup bottles, milk bottles and jam jars
- **separating glass, plastic, paper and cans as advised:** Ask an adult to help you put your recyclable items into the right collection boxes.

PUPIL NAME.....SCHOOL NAME.....

SIGNED BY PARENT/TEACHER.....DATE.....

Please return the entries using the freepost envelope provided to  
**We are Futures, Glass Guardians, 1 Paris Garden, London, SE1 8ND,**  
or scan and email entries to **competitions@nationalschoolpartnership.com.**

I pledge to...

Complete entry here or on a separate piece of paper if you need more space!

Did you know...

Glass Guardians

...it costs less money to recycle glass than to take it to landfill.

...bottles and jars are the easiest materials to recycle.

...bottles and jars can be recycled over and over again and they will still be as good as new!

...lots of glass is still not being recycled - what a waste!

...recycling just 2 glass jars saves the same amount of energy needed to heat your oven to bake a cake!

...ALL glass bottles and jars can be recycled!

...your empty glass jars and bottles can be taken away, recycled, made into new ones and be back in the shops in just 30 days!

... using recycled glass is better for our planet as it doesn't give off as much CO2 gasses which are bad for the environment
