

BODY PARTS AND PUBERTY ACTIVITY SHEET

Can you label the male and female genitals by matching the words to the lines?

Female parts: Labia, Opening of the vagina, Opening of the urethra, Anus

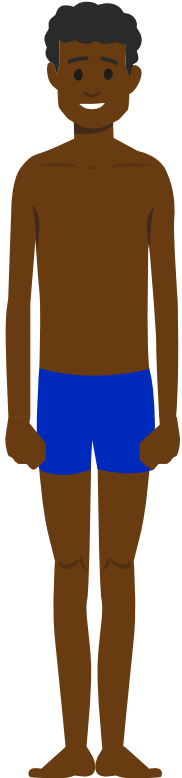

Male parts: Penis, Scrotum, Testis, Urethra, Bladder, Sperm tube

The following 10 statements all describe changes that take place during puberty.

If you think a statement is about females only, colour the box next to it purple.

If you think a statement is about males only, colour the box next to it green.

If you think a statement is true for both males and females, colour the box next to orange.

| | | |
